ANGEL REPORT OF KURT RUSSELL

INTRODUCTION

Some people call them Angels, others call them guardian spirits, and still others use the name daimon, djinn, or demon (for a fallen Angel). Some Angels appear with wings; others have the form of a lion or other bird or beast. According to many sources, there are nine or ten orders of Angels. The most common are these: Seraphim, Cherubim, Thrones, Dominions, Virtues, Powers, Principalities, ArchAngels, and Angels. Some lists include Hosts. Angels are sometimes called Watchers and Holy Ones.

You may recognize a church hymn that begins:

"Ye Watchers and ye Holy Ones,
Bright Seraphs, Cherubim and Thrones,
Sing their praises!
Alleluia!"

Or these lines from Shakespeare's Hamlet:

"Angels and ministers of grace defend us!" (Act I, scene 4)
"And flights of Angels sing thee to thy rest!" (Act V, scene 2)

You don't have to practice any particular religion, or any religion at all, to establish a relationship with your guardian spirits. Calling upon Angels is as simple as this:

1. First you recognize that Angels exist.
2. Then you identify an Angelic spirit or energy for which you feel an affinity.
3. Then you praise that Angel, as you would praise the Lord, the Virgin, or any object of your prayers.
4. Only then do you ask for help.
5. Give thanks for whatever help comes.
6. Finally, watch for signs that your call has been answered.

While the Bible only names three Angels (Gabriel, Michael and Raphael), plenty of Angels are mentioned (the word Angel or its derivatives is used about 300 times in the Bible). Other sources list the names of hundreds of Angels, along with their natures and their responsibilities. Many holy books tell us that Angels are appointed to watch over us, and our literature and entertainment are filled with examples of Angelic presence.

This interpretation focuses on the Angels that are most prominent in your life. You will learn who they are, what they govern, what they can do for you, and how they work together. You will also learn ways to become more aware of them - ways to tune in to their protection and their messages. We each have at least one Angel or daimon who is always with us, who never deserts us, and who offers constant creative inspiration, if we only will listen. Today you can learn more about how to listen to your unique set of Angelic guides.

As you read this interpretation, you will again and again find indications of specific ways to call upon Angels quickly and safely through prayer and meditation. I have called these activities meditations, but I personally also see these as prayers and I have included affirmations - short positive statements of personal intention - for your use. As you practice working with your Angels, you will become adept at contacting them in an instant when you most need their support and help. Since they are always around you, calling Angels is never a difficult accomplishment. However, you may not have any experience at calling Angels! Now, as you read and gain some understanding through this report, you can tune in directly to specific Angels for specific aid.

The hallmarks of true Angelic presence are these:
1. The messages are always loving, positive and clear.
2. Angelic messages and support leave you feeling confident, and certain.
3. Angels are not summoned, they are sent. Yet through visualization and meditation, you can become aware of their eternal dwelling in and around you.

In keeping with the qualities of Angels, I encourage you to listen to your Angels. Call upon them for guidance, but do not intentionally summon them. Instead, allow them to enter your presence by meditating on an Angelic image, wrapping yourself in the feeling of well-being and safety that you have experienced in the past, and patiently allowing yourself to fill with Angelic peace.

ANGELS OF THE CARDINAL DIRECTIONS

The Angels of the directions may show up in your interpretation later in this report. If they do, by reading this section you will be able to recognize their power. If not, you can refer to this report and consider these four possibilities in your life when you travel in their direction, when you are planning a garden, or when you walk outdoors.

East - Michael

The American Indians associate the eagle with the East Wind. The eagle has remarkable vision and can see things in perspective, as well as identify tiny objects on the ground far below. The East is related to the human kingdom, and the eastern wind brings spiritual considerations into your mind. It is in your nature to determine what you do with any gift, any task, or any burden you have been given. The Angel of the East can help you seek the higher spiritual meanings of everything you experience.

Through meditation, you can cultivate choices in any situation. In meditation, allow your mind to seek three possibilities. Some of the choices may seem weak or unacceptable to you, but they are still choices. Initially you may have simply said no to such an option. Some of the choices may seem strong for one reason or another. Michael can help you determine which choice is the best for you to follow. Occasionally you will find that your meditation leads you back to the choice you initially refused. What seemed unacceptable at first sometimes turns out to be the best path after all.

If you feel drawn to the Angel Michael, you may want to incorporate an early morning ritual into your daily life. Stand with your face to the sun to gather in energy for your day's activities. This is effective even before the sun rises.

North - Uriel

The buffalo is the animal the American Indians associated with the North Wind. Buffalo medicine was among the most power resources the Indians had, just as the buffalo was their primary source of food, warmth, and everything they needed. The North, then, is associated with material sustenance. The power of the North lies in receiving that which we need. To cultivate the capacity to receive, we need to cultivate the mind.

Through meditation, you can cultivate your mind by developing flexible mental boundaries. The mind can take you wherever you wish to go. Through meditation, you can learn to identify the meaning behind simple facts, and the application of the principles of love to each fact you discover. In addition, the North is associated with the quiet, even dormant quality of mind. You may also develop some skill in allowing your mind to rest quietly, so that insight may arise.

If you feel drawn to the Angel Uriel, you may want to incorporate prayers or acts of thanksgiving into your daily life. By recognizing the bounty in your life, you also enhance it.

West - Gabriel

The American Indians associated the grizzly bear with the West Wind. This strongest of all bears represents Gabriel, a very powerful Angel. The power of the west lies in teaching you about self-sufficiency. The power of the grizzly is to teach patience. This animal seldom hurries for anything.

The West relates to the mineral kingdom. Through your meditation, you may learn the value of certain gems and minerals to heal mental or physical ills. Each gem has existed long before you thought of embarking on your present physical existence. According to Kenneth Meadows in Earth Medicine, the senses can be developed through the use of peridot (vision), onyx (hearing), carnelian (touch), topaz (taste), and jasper (smell).

If you feel drawn to the Angel Gabriel, you may want to end each day with a few minutes of meditation in which you consider the activities of the day, and seek guidance through dreams.

South - Raphael

The animal the American Indians associated with the South Wind was the mouse. This tiny creature has profound wisdom all its own. The mouse perceives the world on a very small scale. This animal reflects your capacity to relate to things and people by getting closer to them - close enough to touch. Often we engage emotional feelings when we are close enough to physically touch another person.

Raphael can aid you in your meditation by bringing you more in touch with your own body, and with your immediate surroundings. The South Wind emphasizes self-awareness as a foundation for giving to others. Out of self-awareness comes compassion for others. As you cultivate self-awareness, you also begin to trust the Universe to provide whatever you need to become that compassionate being you glimpse in your meditation.

If you feel drawn to the Angel Raphael, you may want to incorporate an activity into your daily life that you do just for yourself. For example, daily bathing offers a private time to allow healing energy to wash over your body.

YOUR MOST POWERFUL ANGELIC CONNECTIONS

Neptune

The planet Neptune, by its sign, house placement, and aspects, reveals the Angels that most strongly support and influence your life. You always have Angels around you, and you may have identified specific Angels from time to time throughout your life. Some of the Angels mentioned in this report have familiar names, some have unfamiliar names, and there are many Angels without names. You may find that the familiar Angels seem to have more power. This is because they have been invoked many times by many people, and therefore they have more apparent power. Your personal Angels, even if they have no names, are powerful to you, and they help you focus your individual energy more effectively.

Neptune is in Libra

With Neptune in Libra, you are part of an entire generation of people who share in the influence of the Angel Uriel.

Uriel is thought to be the Angel of death that fetched the soul of Moses. Uriel was also a likely source of Moses' knowledge. His name appears on Gnostic amulets. As his name, 'God is my light,' suggests, Uriel is often shown with the flame of the Holy Spirit in his right hand, amply indicating the sheer power of his capabilities.

Although sources differ, the power of this Angel is often associated with the red healing energy of the root chakra, and with the tourmaline gem.

Sometimes called the Angel of punishment, Uriel actually seeks to establish or re-establish balance. To create balance in your life, call upon Uriel, who will save you from destructive thoughts of guilt or revenge. To help in this way, Uriel must understand both sides of any question, and can aid you in gaining this kind of understanding for yourself.

Meditation for Uriel
Meditation requires focus and practice in order to become familiar and easy to do. Yet it requires nothing that you do not already have in the way of clothing, equipment, or mental faculties.

1. Wear loose clothing that will keep you warm or cool, depending on the season and conditions.

2. Sit cross legged on the floor or on a cushion. If this is too uncomfortable, you can sit in a straight-backed chair. Keep your back erect.

3. Place your hands on your thighs so that your upper arms are vertical and the position feels relaxed. You can adjust your hand position as needed.

4. Direct your gaze straight ahead into the distance. You will notice that you are aware of your peripheral vision too.

5. Breathe in and out slowly. Follow your breath as it goes out, and feel it as you inhale. Allow yourself to notice

any sensations in your body, and any sounds in your environment. Do this for a minute or two.

6. Then, as you breathe in and out, notice what you see.

7. Don't focus on each thing you see, but instead maintain your gaze into the distance. Yet become aware of all that you see.

8. Notice how your mind wanders from one thing to another. The floor covering, the color of the walls, the elements of nature if you are outdoors.

9. Continue for a comfortable period of time.

This meditation often helps to stimulate insight. Most of us don't take the time to simply be in the space we occupy, and this meditation allows you to do just that. You voluntarily choose to concentrate your attention in a specific way, although there is no specific goal to attain. All of your past, including past lives, comes together to form the fulcrum of a balance. The other side of the balance is your entire future. As you practice this meditation, you gain insight concerning possibilities for the future. Pay attention to the details of any thoughts that arise, whether they be about the past, the present, or the future that is opening to you now.

Neptune is in the 2nd Decanate of Libra

Draco - Independence
Draco is the constellation of the second decanate of Libra. Dragons have been depicted as foul scaly creatures that wreak havoc wherever they go. Taming the dragons in your mind requires practice. Dragon slaying around the world is connected to the fear that the Sun will disappear, as it does during eclipses. Slaying your mental dragon consists in unifying your personality and soul successfully. Your duty is to exercise the mind. Angelic presence supports your meditation.

Affirmation
I stand firm in my desire to broaden my experience.

Neptune is in the 4th House

With Neptune in the Fourth House, your Angelic focus is on spiritual perception. You always understood your family's basic beliefs. As you deepen your connection to your Angels, you begin to understand your own most heartfelt beliefs, and to sort them out from what you have learned from family and peers. You may even be surprised to learn that you can set aside beliefs that have complicated your life and caused you pain.

You have profound emotional sensitivity. This is a valuable resource because it is the conscious edge of your potential psychic awareness. You probably have built protection against emotional overload, and that is good. Now your Angel can help you mobilize that sensitivity to gain what you want and need, and also to aid others.

You have a deeply affectionate nature. You find it easy to love others in all the ways that we can love. You can develop spiritual relationships with friends, lovers, and family. You have sympathy for just about everyone you meet. This natural sympathy will grow throughout your lifetime to become compassion.

Suffering through disappointments provides you with the building blocks of your compassion. Your Angels help you learn to feel compassion for yourself first, and then they show you the path to sensitivity to the problems of others.

Possible weaknesses include melancholy and hypersensitivity. At first it is easy to sink into sadness because of your own suffering, or because you feel the suffering of others too keenly. However, as you gain experience, and as your Angels strengthen your intention, you find that you have profound emotions, and yet you are able to act in a positive way to alleviate suffering. You no longer remain stuck in feelings that are difficult to face and even more difficult to

understand. Your Angels provide support and guidance as you learn how to see each situation as a way to offer help to someone in need.

The artist Georgia O'Keefe had Neptune in the Fourth House.

ANGELS IN YOUR DAILY LIFE

The Ascendant

The Ascendant in your chart is the sign rising in the East at the time of your birth. As such it also reflects the way your personality rises new and refreshed to greet each day. The Angel of the Ascendant also rises each day to assist you in renewing your personality and your personal resolve.

The Ascendant is in Cancer

With the Ascendant in Cancer, you gain strength from the Angel Muriel who provides emotional succour. The quality that shines forth freely in your personality is your shifting moods. Coming from an emotional space of intense vulnerability, you mask your feelings whenever possible, and you design protective measures to keep you from being hurt. Muriel can help you to become more open, while maintaining a reserve of safety.

You also demonstrate sentimentality. You wax nostalgic for the past and you probably have a collection of memorabilia from your adventures. You are attached to possessions, once acquired. You occasionally feel like an orphan. Your Angels help you to feel like you belong where you find yourself.

Your magnetic personality sometimes attracts the wrong people, although you have learned to sort out the more desirable friendships and work to develop them. Here again, Muriel offers protection from harmful influences and guides your attention toward positive, creative relationships.

You are readily responsive to other people's moods. Your psychic ability allows you to sense other people's feelings. One problem is developing clarity about what feelings are your own, and which ones are coming from other people. Once you gain clarity in this regard, you become more responsive to other people. You find you can often help them with just a few well-considered remarks. Your active imagination helps you find just the right delivery.

The Midheaven

The Midheaven in your chart is associated with an Angel who helps you understand yourself, and who is activated at specific times to bring the necessary understanding at moments of great transition or transformation.

The Midheaven is in Pisces

With the Midheaven in Pisces, you establish yourself in the world with the aid of the Angel Barchiel who Relieves burdens of guilt and sorrow. You know that your greatest skill lies in sitting aback, watching what is happening around you, and waiting to learn how problems and solutions develop without your intervention. Your psychic ability tells you when to wait and when to take action. You also appreciate the relative speed of time. You know things seem to move more quickly or slowly, depending on emotional factors.

You have a strong desire for simplicity in your life. Your psychic sensitivity makes simplicity a must. As you opt for

basics on the material level, you find that you can keep yourself out of the raging flood of emotional energy that other people create. This doesn't mean that you cannot become successful and famous in your career. It means that you don't complicate your life with side issues.

How do you personally perceive signs that your prayers have been answered, or that your Angels have heard you? When you aspire to greater spiritual understanding, you find that you have to let go of some of the simple assumptions you made early in life. Your Angels help you to formulate a spiritual perspective that incorporates the necessary details of daily life, but reduces the number of absolute beliefs that can hold you back from personal progress.

In addition, you find that your capacity to manage crisis situations improves. You are able to handle problems in your children's lives, new relationships in your own life, and situations with co-workers, and other associates. You perceive your personal needs to be less compelling, and your empathy for others is translated into compassionate support. The combination of the Pisces Midheaven and the Angelic energies of Barchiel is indicative of a career through which your sympathy for others can be used effectively. Examples include nursing, counseling, or psyhcic work.

Meditation for The Midheaven
1. Sit or kneel in a comfortable posture, back erect.

2. Begin by breathing in and out, settling into your posture and gazing slightly downward.

3. As you breathe, allow awareness of compassion to fill your mind.

4. Develop a rich, vibrant feeling of what sympathy looks like, feels like, and sounds like. Consider all your senses as you build awareness.

5. As you do this meditation, notice how your attitude toward compassion may shift or become even more defined.

6. Do this meditation for a few minutes.

7. When you are finished, write about your impressions for future reference.

The Midheaven is in the 1st Decanate of Pisces

You occasionally feel intense anger when you are required to give up material possessions. When anger takes over, your Angels help you by steering you toward clarity and breadth of vision, both of which you know you possess in ample measure.

Neptune is a Co-Ruler of the 8th House by Interception

As you cultivate your personal Angels, you discover that what you sometimes see as a struggle becomes a simple step along the path of transformation. Even the final transition into death is a simple step to the next phase of your spiritual life. As your Angels help you cultivate this awareness, joy enters into every aspect of your existence, and new doors open to you all the time.

You sometimes overestimate your own abilities and take on far more than other people. Your Angels reveal that your abilities are not limited, nor is your capacity for love and joy. Your Angels help you to sharpen your instincts and focus your intuition so you can see beyond the so-called normal world into the spiritual realm. Then you discover the greater joys associated with your spiritual, mystical life.

Pisces is a water sign. Your meditation can be aided by placing one or more containers of water around you. Often you can relax your mind while bathing, as the movement of water helps the alchemical transformation process. The

watery movement, combined with chanting, reading, or simply thinking about a mantra, can help you to allow change to occur naturally. You may see through apparent reality to a subtler level of psychic experience in this way.

Neptune is the Ruler of the 9th House

As you cultivate your personal Angels, you discover that your inner spiritual life is increasingly important. You sometimes wish you could escape the normal details of your nine to five existence and focus on higher aspirations. Your Angels support you in this desire and help you manage daily demands so you have time for more idealistic pursuits.

You have powerful psychic potential. Developing this side of your mind require paying attention to the impulses that flow through your thoughts all the time. Your Angels can help you recognize presentiments that signal actual future events, the flashes of insight into the behavior of others, and the deepening sense of self-assurance that comes from using your active mind skillfully.

Pisces is a water sign. Your meditation can be aided by placing one or more containers of water around you. Often you can relax your mind while bathing, as the movement of water helps to open to your intuition. The watery movement, combined with chanting, reading, or simply thinking about a mantra, can help you make space for intuition to arise. You then see through apparent reality to subtler levels of time and space in this way.

The Sun

The Sun is the center of our solar system, and symbolizes the spiritual center of your being. It reflects your individuality as you express it in this lifetime, and it also expresses your spiritual potential for this lifetime. The Angel closely associated with your Sun sign can help you to be the best, happiest person possible.

The Sun is in Pisces

With the Sun in Pisces, you gain strength from the Angel Barakiel. One of your challenges is to discern the difference between belief and knowledge. The two fishes of your sign reflect the duality of human experience, as one represents the personality and the other represents the soul. The two are tied together, and you learn about each through the other.

Barakiel helps you to understand your instincts while also elevating your mind through intuitive awareness. You have intense awareness of the people around you, and you can serve as a link or mediator because you understand all sides of a situation, and you can sympathize with them all.

Metatron, thought to be the most powerful of the Angels, is readily available to aid your development. You progress from instinctual living to intellectual strength, and from selfishness to selflessness. Negative emotions are gradually converted to sympathy and compassion for whomever you meet.

INTERACTING WITH ANGELS

While you are going about your daily activities, the Angels around you are interacting according to your unique personality, desires, and needs. Imagine that you are on stage, acting out your role in life. Behind the scenes your personal Angels are arranging what you need, discussing how you feel, and possibly even debating the best way to help you. You don't have to worry about their actions because they continue to act in your best interests even when you are unaware. The following aspects indicate how your personal Angels work for you throughout your life. If you have no aspects to Neptune, that circumstance is also discussed. As you work with your Angels, you will become more and more aware of these themes and what they mean for you.

Mars is Opposite Neptune

With Mars Opposition Neptune, you experience energetic cooperation between Samael and Tamiel. Samael is the Angel of Temptation. The gift in this Angelic energy is the power to market yourself and your ideas to others. Tamiel is the Angel of Dreams. Here you find the words and images, the touch and smell that entice others to buy or buy into your schemes.

Spirituality provides a regulator for your feelings and passions. While you definitely want to be successful, the aim is to do so without causing harm to anyone else. Therefore your Angels help you to be persuasive only after finding out what the other person wants or needs.

Sometimes you feel the urge to express yourself in a particular artistic medium. Although you may not sustain this interest long enough to develop expertise, your artistic efforts are deeply satisfying to you and they may grace your home or office, or the homes of family members. If you continue to produce works of art, you may gain a following.

A weakness is the tendency to consider harming others. You may have destructive thoughts, but you never need to act on them. Your Angels help you to channel your energies toward compassion instead of harm.

Another weakness is susceptibility to drugs and alcohol. Here again your meditations with the Angels help you to avoid unnecessary drug use, and to moderate use when drugs are prescribed.

A great strength is your inspired ability to plan grand ventures and then to see them through to completion. Any feelings of inferiority dissipate when you are fully engaged in a project. You magnetically attract just the right people to help you get things under way and approach your goals with few side trips or distractions.

The extent of your compassion is unlimited. As you deepen your awareness of Angelic presence, compassion flows from you to all living things, including the planet itself.

The Moon is Square Neptune

With Moon Square Neptune, you experience the very positive, constructive interaction between Gabriel and Tamiel. Gabriel is the Angel of the Annunciation, and Tamiel is the Angel of the Sea. Sometimes named Rahab, Tamiel is the Angel guardian of dreams. The immense transformational energy of Gabriel merges with Tamiel's primordial power in your personal life, enhancing the power of truth in your life.

With a strong association to Gabriel, your dreams are often prophetic in nature. You may have dreams that you cannot understand at the time. They are composed of familiar people and things, but the associations make little sense. Later, you discover yourself in a situation that recalls the dream precisely. Or sometimes you fell a sense of deja vu, and you may then recall the previous dream.

You have the natural capacity to perceive the future through dreams. For this reason you may want to record your dreams and follow their meanings. Prophetic dreams have some definite qualities. First, they seem to be true dreams, even when you feel they are somehow absurd. They have an internal logic, similar to the plot of a story. They seem meaningful to you because of the people and places in them. Prophetic dreams have a compelling quality that allows you to remember details. They provoke a feeling of deep mystery and you may be able to communicate the sense of mystery to other people.

Your powers of clairsentience - ability to feel other people's feelings - develop as you become more familiar with Gabriel and Tamiel. You always know something about how other people are feeling. Now you can work to develop your extrasensory ability to discern who is feeling what, and understand other people's feelings separate from your own.

You are somewhat open to negativity from other people. Gabriel and Tamiel work in concert to provide a way to buffer this energy so that you can notice it without taking it into yourself.

Pluto is Sextile Neptune

With Pluto Sextile Neptune, your life is enriched with opportunities presented by the Angels Metatron and Tamiel. Metatron has been called the King of Angels and the Chief of the Ministering Angels. This Angel is thought to be the pillar of fire the Jews followed in their exodus from Egypt. He is a certain link between you and the divine. Metatron's association with Tamiel, the Angel of Primordial Energies, is extremely powerful.

You undoubtedly experience supernatural events and conditions during your life. Your Angels provide this resource and can help you refine it. Psychic impressions and intuition become second nature to you after a while. You learn to act on intuition in much the same way you would act on advice from your accountant.

One facet of the path of personal integrity for you involves purification of your soul. This means elevating your thoughts above petty jealousy and anger. While you may never overcome negative thinking entirely, working with your Angels will lift you up, step by step, to thoughts of compassion and love. Love overcomes fear and compassion overcomes hatred.

One possible expression of this aspect of your birth chart is that you have at least one extrasensory ability. At first you may experience some confusion in interpreting psychic and intuitive information as it comes to you. You are likely to overcome this confusion once you develop the necessary comprehension of your abilities and thus develop your psychic skills. Meditation each day allows your Angels to contact you more directly to help in this area.

You have the power of a storyteller combined with the wisdom of a seer. You could write fiction or dramatic scripts, and your poetry can become the liquid fire of inspiration and soothing balm for the soul.

Neptune is Quincunx The North Node

With Neptune quincunx the North Node, the adjustments to life that are forced upon you are eased through the close companionship between Tamiel and the entire heavenly host. You are inclined to think that anything is possible when this aspect is active in your life, perhaps because so many Angelic energies contribute to your lively imagination. It seems that each of the many Angels helps you adapt a tiny bit, so that change becomes myriad shifts instead of one big change.

A weakness is the lack of flexibility in dealings with other people, possibly due to your confusion about what they want or how you fit into their plans. Another possible problem concerns dreams that disturb your peaceful sleep.

If you have difficulty establishing good contacts with other people, call upon Tamiel and the heavenly hosts for comfort and support. They can stimulate imaginative ways of getting your ideas across to others.

On the up side, you can develop your psychic sensitivity so that you know what is coming in the next moment or the near future. This way you feel better prepared and can appear more adaptable, even if you still feel a bit foggy about the details.

With a host of Angels behind you to bolster your courage, you find that engaging with others in social activities becomes easier.

CONCLUSION

As you have read this interpretation of your birth chart, you have learned about a number of Angels that are important in your life. You have also been introduced to some meditations and affirmations that help you connect with angelic presence more easily.

If you resonate with just one of the Angels mentioned, you will find your life fills with greater joy and peace.
