Relations with other people, either individuals or groups, can be stressful during this transit. You are keen to explore new connections with other people, but are having difficulty letting go of the old ones. As a result you are over-committed. It is possible that your sense of being overwhelmed by your social commitments may also be the result of a tendency to want to withdraw from society. You may even feel anti-social, preferring to reassess your personal and business relationships than to mix. You wonder if your relationships are really helping you achieve your purpose in life. You feel compelled to let go of the old in order to move into new and improved relationships. This could be literally ending old relationships, or simply breaking old patterns of relationships so that they continue in a renewed manner.

Uranus in the 12th House

From 05 Oct 25

Uranus is a planet that is full of surprises. It takes approximately 84 years to do a full circle around the Zodiac. This means that it moves slowly through each Zodiac Sign and its effects on your Birth Chart takes time to unfold. It is important to note that this erratic planet can affect your life in a variety of ways depending on how you cope with change. If you try to resist change then you may find this planet's effects somewhat of a challenge. If you welcome liberation then you are in for a joyride. The planet Uranus helps you break free from past chains and restrictions and form new and more joyful ways of interacting in your life. Your life may be disrupted but you are then free from thinking inside the box, and new horizons open up. The area of your Birth Chart influenced by this liberating force is likely to be awakened and stimulated. This is a profound period in your life, although at times you may feel the need to retreat. On the positive side you experience intuitive flashes, initiate or join an unusual institution and expand your philanthropic interests. It is also possible that you probe the human psyche in an unusual fashion.

Uranus Sesquisquare Neptune

From 05 Oct 25

During this time you could fall prey to deception, either your own self-delusion or someone else's veiled actions. This time can be tense as you are unsure about exactly what is going on. It is as if you are in a boat at sea and a fog has descended leaving you unsure of which way to head to shore. While this time can be beneficial because of the type of tension sometimes needed in a creative project, it is normally not a good time to be entering major business deals or making life-changing decisions. You would do better to rest, relax and avoid meeting difficult situations head-on.

Neptune in the 6th House

From 05 Oct 25

The planet Neptune takes approximately 164 years to circle the Zodiac. This slow-moving planet's transits unfold slowly. It is therefore more significant to look at any exact transits that are occurring in your Birth Chart. Nevertheless it can be helpful to try to understand the effect of Neptune as it enters into and transits through a House in your Birth Chart. Neptune is the planet that urges us to search for meaning in our lives, to look beyond the structures and focus on purpose. For instance are you pursuing a career because of ambition and material rewards or is it your true purpose and fully satisfying? Therefore it is not uncommon for the initial effects of Neptune to be confusion and disillusion, perhaps even a sense of loss. Gradually awareness emerges and you are able to see what is underlying the illusions and what you can gain by changing your course and embracing values that truly enhance your journey in life. Neptune helps you see the truth of any situation and therefore live your own truth. As Neptune travels through your 6th House you need to take care of your health, taking particular care with drugs of any description. The trouble is that your body is overly-sensitive during this time. You may even develop or discover allergies. You may also feel somewhat lethargic, overwhelmed by the demands of a busy life. A good balance of rest, exercise and a healthy diet goes a long way towards helping you cope with the stress of a busy schedule. You may also benefit from seeking advice from alternative healers, or perhaps even exploring options for working as a healer or in a spiritual field.

Neptune Trine Mars

From 05 Oct 25

The desire to escape is strong, perhaps inspired by a wonderful project or person; or maybe the opposite is true and you are tired. Either way don't push. Take some quiet time. Inspirational actions often follow periods of

recuperation. If you feel tired, despondent or unwell you can trust that this soon passes. Your opportunity in this instance is to slow down a little, reconsider your options and perhaps seek professional advice. Have faith that all will be well.

Pluto in the 5th House

From 05 Oct 25

Pluto is the slowest moving planet in the Solar System, taking approximately 248 years to complete a circle around the Zodiac. This slow-moving planet's transits are long-lasting and initially pack a punch if you are not living according to your true natures. The more you are your authentic self, the more that you can embrace the positive side of Pluto. The author of the website Caf? Astrology puts it best when stating: "Pluto compels us to explore more deeply. Superficiality is not acceptable for Pluto. Pluto transits insist that we get in touch with our core purpose and our deep sense of power. New levels of intimacy, not only with others but also with ourselves, are discovered and uncovered." Currently you have a powerful need to express yourself creatively, and your energy would be best directed through a demanding and absorbing creative project. Children, either your own or other people's, may present a challenge. It is possible that you are seriously considering whether or not to have your own children.
